SUMMARY

Frontend Developer with 3 years of experience building responsive, accessible web applications using React and modern JavaScript tooling.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks/Libraries: React, Redux, Next.js, Tailwind CSS

Tooling: Webpack, Vite, Jest, React Testing Library, Git

Other: REST API integration, Responsive Design, Web Accessibility (WCAG), Figma-to-code

PROFESSIONAL EXPERIENCE

Frontend Developer — Nimbus Retail Tech

Chennai, India | Mar 2023 – Present

- Built and maintained a React + TypeScript component library used across 5 internal products.
- Improved Lighthouse performance score from 62 to 94 by code-splitting and lazy-loading routes.
- Integrated REST APIs and GraphQL endpoints for a customer-facing dashboard used by 10K+ users.
- Led migration from Create React App to Vite, cutting local build times by 70%.

Junior Web Developer — PixelForge Studio

Chennai, India | Jul 2022 – Feb 2023

- Converted Figma designs into pixel-accurate, responsive React components.
- Wrote unit tests with Jest/React Testing Library, raising test coverage from 40% to 78%.

PROJECTS

Task Board App — Drag-and-drop kanban board built with React, Redux Toolkit, and Tailwind CSS with full keyboard accessibility.

E-commerce Storefront — Next.js storefront with server-side rendering, dynamic routing, and Stripe checkout integration.

EDUCATION

B.Tech Information Technology, SRM Institute of Science and Technology — 2022 | CGPA: 8.7/10
