PROFESSIONAL SUMMARY

Motivated B.Sc. Computer Science graduate (2026, CGPA 8.6) with hands-on experience in AI, full-stack web development, and software engineering internships. Skilled in Python, Java, React, Node.js, and MySQL, with a strong foundation built through real-world projects like an AI interview simulator and AI tutoring platform. Currently gaining industry experience as a Software Engineer Intern, complemented by achievements in hackathons, cybersecurity, and public speaking. Eager to contribute technical and problem-solving skills to a general IT role.

SKILLS

- Programming Languages: Python, Java, JavaScript
- Web Technologies: HTML, CSS, React, Node.js, Express
- Database: MySQL
- Tools: MS Office Tools

EDUCATION

B.Sc. Computer Science

2026

KSR College of Arts and Science for Women — CGPA: 8.6

INTERNSHIP EXPERIENCE

Software Engineer Intern — Shnoor International LLC

Jul 2026 – Present

- Working as a Software Engineer Intern, contributing to ongoing development tasks and gaining hands-on industry experience.

Artificial Intelligence Trainee — IDM Tech Park, Erode

May 2025 – Jun 2025

- Completed a 15-day training program covering fundamental concepts of Artificial Intelligence.

Part-Time Radio Jockey — KSR Community Radio 90.4 MHz

Feb 2026 – May 2026

- Hosted live radio segments as part of a part-time RJ programme, building strong communication and public speaking skills.

PROJECTS

YAMI Interviewer

- Built an AI-based interview simulator with an HR avatar for mock interviews, providing feedback to help freshers and jobseekers prepare.

AI Tutor

- Developed an AI-powered tutoring platform helping students clarify doubts and receive personalized learning assistance.
- Implemented role-based features for students, tutors, and administrators with an interactive web interface.

Book Store Application

- Developed a full-stack online bookstore for browsing, searching, and managing books through a user-friendly web interface.
- Implemented REST APIs, user authentication, and database integration for efficient application management.

GitHub Repository Analysis

- Built a tool to analyze GitHub repositories and extract insights from repository data, commits, and project activity.
- Presented repository metrics and analysis results through an interactive dashboard.

CERTIFICATIONS & ACHIEVEMENTS

- Cyber Security — Completion Certificate, IBM SkillsBuild (Advanced IT Skills)
- Certificate of Merit — National Level Road Safety Hackathon 2025 by UYIR, for presenting "Smart Crosswalk for Pedestrians"
- AI for Beginners — HP LIFE
